CLEANING

Keep Your Fleximug in Top Condition by Cleaning It Regularly

USE CLEANING BRUSH
THROUGH TUBE AND STRAW

THE ASSEMBLY

See How the Pieces Fit Together to Work Properly

Flexible Straw

Stays put in any position, made of durable, food-safe, leakproof, modular plastic.

A

1-Way Air Vent Lid

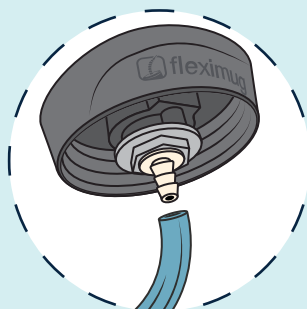

Attaches to Flexible Straw, locking in connection when in use. Lid screws in place with mug, and is spill proof when disconnected from straw.

B

Flexible Tube

Attaches to the downward-facing air vent, reaching to the bottom of the mug. Removable for cleaning and replacement.

C

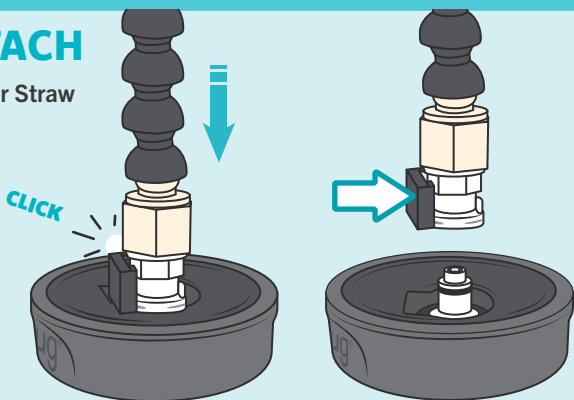

Stainless Steel Mug

Shiny, stylish, and vacuum insulated. Keep your drinks hot or cold for hours in a BPA-free mug made special for this straw attachment.

D

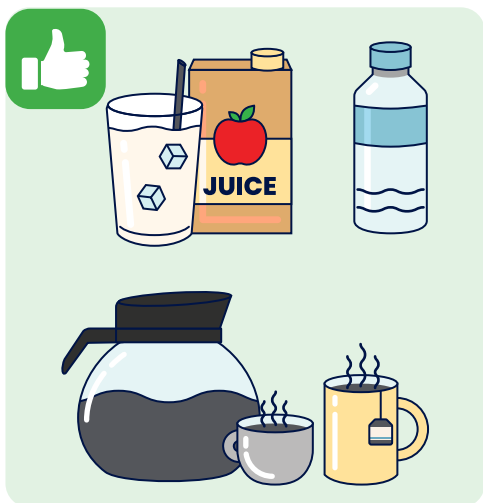

CONNECT & DETACH

Push-to-Connect Design for Your Straw

USING FLEXIMUG

A Few Recommendations for Best Use and Results

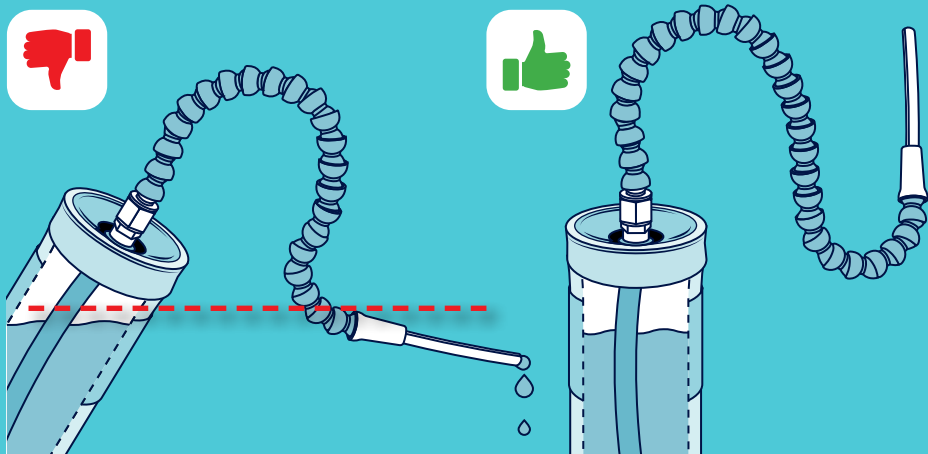

Fleximug Beverages

Fleximug is recommended for use with water, or other thin liquids. Carbonated liquids may cause malfunctions.

PRECAUTIONS

Avoid Leaks During Use by Keeping This in Mind

Perfect Placement

Position the straw tip upwards, and make sure it stays placed above the liquid level in your mug. The one-way valve included in the Fleximug lid can siphon liquid if allowed to flow downwards, and will not stop unless positioned otherwise.

LIVE WITH MORE INDEPENDENCE

Fleximug is a revolutionary product, years in the making. From rigorous development, to introducing to the public, and now revitalized under new ownership, we're excited for Fleximug to find individuals that can benefit from its presence

Fleximug is built to last a lifetime. Made specifically for those with mild-to-moderate reduced lung function, this product enables easier mobility and engagement with your world.
